Second-year CS student who ships production AI and web apps to real users. Production internship experience in QA and full-stack development, independent client delivery as a freelance developer, and operations lead for a 100+ member technical club.

EDUCATION

Manipal University Jaipur

B.Tech in Computer Science & Engineering, CGPA: 8.02

Jaipur, Rajasthan

2024 – 2028

WORK EXPERIENCE

AI/ML & Web Development Intern

World IT Dimensional Solutions (WITDS)

Jun 2026 – Present

Remote

- Built and shipped AI-powered features and full-stack web applications end to end.

Freelance Full-Stack Developer

Independent

2026 – Present

Delhi NCR / Remote

- Designed, built, and deployed responsive marketing sites for small service businesses on Netlify, owning the full cycle from client requirements to shipped, hosted production site.

Software Engineering Intern

Khosla Tech Services Inc.

Jul 2025 – Aug 2025

Remote

- Executed end-to-end regression testing for the Rate Analyzer service with Postman and JIRA, identifying and documenting 15 defects against expected behavior to reduce defect escape into production.
- Tracked and triaged bugs through the full JIRA workflow within agile sprints, ensuring defects were reproducible and scoped before escalation to senior engineers.

PROJECTS

Moodify | *Python, Flask, React, Vite, Groq LLaMA 3, Spotify Web API*

Live 2026

- Built an AI music recommender that translates natural-language mood input into curated Spotify playlists via LLM-driven query expansion with Groq LLaMA 3.
- Reduced API response latency by 83% (30s to 4–6s) using a token bucket rate limiter and UUID-based playlist caching, improving stability under concurrent load.
- Integrated the Spotify oEmbed player for in-app playlist playback without page redirects.

Deadpixel | *React, Node.js, GPT-4, REST APIs*

Live 2025

- Built a real-time API health monitoring dashboard that uses GPT-4 to detect endpoint failures, diagnose patterns, and surface fix recommendations.
- Implemented a polling-based refresh system with debounced state updates to eliminate redundant re-renders and keep UI smooth under continuous load.

EXTRACURRICULARS

Operations Head, NEXUS Club

Manipal University Jaipur

Jul 2025 – May 2026

Jaipur, Rajasthan

- Directed recruitment and onboarding for a 100+ member technical community, bringing in 20+ freshers per cycle.
- Organised 3 technical workshops and industry speaker sessions, increasing campus engagement across two semesters.

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, C, C++

Frontend: React.js, Vite, HTML5, CSS3

Backend: Flask, Node.js, Express.js, REST APIs

Databases: MySQL, MongoDB

AI/ML: LLM Integration, Prompt Engineering, Groq LLaMA 3, GPT-4

Testing & Tools: Postman, JIRA, Git, GitHub, Linux, VS Code
